About Me:

I am a Communications and Multimedia Specialist with over seven years of design experience driving social impact. Specialised in Communications for Development (C4D), brand governance, project coordination, and stakeholder engagement. I translate organisational goals into human-centred narratives, delivering consistent, high-impact storytelling at scale across diverse context.

My Experience:

Tearfund | Graphic Design Officer | Mar 2022 – Present

Provide design oversight and guide multi-country teams across seven regions on accessible design practices, visual standards, strengthening brand consistency and enabling effective communication of [Tearfund's work](#). Led the development of accessibility guidelines within Tearfund's design processes and delivered trainings to freelancers and staff in multiple countries to promote human-centred design. Translate complex policy and programme content into accessible assets used for advocacy, learning, and community development which improved stakeholder engagement. Curate Tearfund's template database through easy-to-use reporting templates, improving user experience, increasing adoption by country offices, and reducing reliance on complex design tools and external designers.

Inuka Africa | Digital Communications Consultant | Nov 2020 - Sept 2025

Translated complex programme and monitoring data into clear, accessible visual assets used in donor and partner reports, strengthening accountability and supporting resource mobilisation. Led digital communications across social media, email marketing, and web platforms, improving engagement and visibility of programme work. Provided strategic design support and web design inputs aligned to organisational objectives, while using digital analytics to track performance and inform communication decisions.

Trio Digital | Lead Creative Designer | Jan 2019 – Dec 2021

Led end-to-end design and multimedia production for print, digital, social media campaigns and live events, including photography, videography, and motion graphics for local and international NGOs, private, and government clients. Owned the full project lifecycle from concept and storyboarding to production, post-editing, and client delivery, ensuring brand consistency, cost-efficient production, and timely execution. Delivered visually compelling, high-impact assets that enhanced client engagement, supported campaign objectives, and generated reusable media libraries for future marketing initiatives.

Dari Restaurant | Digital Communications Manager | Mar – Aug 2018

Spearheaded digital marketing communications across web, social, and email, successfully converting online leads into dining and event bookings. I produced all creative assets, including photography and video, and designed and managed the company website, used client feedback to drive engagement and brand loyalty.

The Journey | Program Co-ordinator | Jan 2015 – February 2018

Designed and oversaw the Ascent Leadership Program and The Journey campus events. Managed logistics, fundraising, and brand-aligned media coverage team. I developed and taught a multimedia design curriculum and participated in facilitating corporate leadership training while providing all supporting multimedia and marketing materials for the same.

PJ's Lense | Founder & Multimedia Specialist | 2014 – Present

Manage end-to-end business operations from client acquisition to invoicing. I execute comprehensive multimedia projects, including photography, video, and design, delivering tailored communication solutions for a diverse client portfolio.

My Education:

2021-2023 Google UX Design Professional Certificate
Front-End Web Development - ALX Africa

2011-2015 BSc. Telecommunications with IT - Kenyatta University

2014 Ascent leadership training - The Journey
